

# Value Based Purchasing (VBP)

- Skilled Nursing Facility 30-Day All-Cause Readmission Measure
  - A new 30 day risk window would begin if the resident is subsequently discharged from the hospital and admitted back to the SNF.
  - This measure is not the same as the one used for SNF QRP and report on Nursing Home Compare

Slide clarification regarding hospital readmissions

Risk window does end once readmitted to the hospital but the window would begin again if discharged from the hospital and admitted back to the SNF.
