Increase your knowledge of clinical assessment and care planning, completion of the MDS, and the regulations surrounding the RAI/MDS process by attending the three-day AANAC Resident Assessment Coordinator -Certified (RAC-CT®) certification workshop. Having the RAC-CT credential behind your name shows that you are a knowledgeable and capable MDS professional.

This certification is the most widely-recognized and respected MDS 3.0 certification available in the long-term care profession, as well as the mark of nurses who understand more than a paper form-they understand resident assessment.

The workshop will increase your knowledge and skills required to perform accurate assessments using the RAI manual.

This workshop covers the following content from the RAC-CT curriculum:

- **Accurately Assessing Functional Status and the MDS 3.0:** Understand the survey process as it relates to assessment or functional status
- **Care Area Assessments:** Identify the 20 care areas, documentation, requirements, and timing for completion

- **Care planning:** Improve your critical thinking skills and understanding of interim and "I Format: care plans so your residents have every opportunity to thrive while doing what they love in a way that works for them
- **Five-Star Quality Rating System:** Understand how the annual licensing and certification survey impacts your facilities Five-Star Quality Rating System
- **Medicare Part A:** Navigate your facility through government audits by helping other teammates capture the right assessment information and knowing what MDS documentation auditors will ask for when they arrive
- **MDS 3.0 Coding for OBRA and PPS:** Learn how to accurately code the MDS 3.0
- **OBRA Timing and Scheduling:** Understand the requirements for scheduling and timing OBRA required assessments and how to appropriately use the discharge assessment as well as identifying the criteria for completing the Significant Change in Status Assessment
- **PPS Timing and Scheduling:** Review scheduled and unscheduled assessment requirements and transmission to the national QIES and ASAP systems databases
- **Quality Measures:** Understand the components of each Quality Measure score calculation and the facility processes necessary to achieve good scores
- **Resource Utilization Group IV:** Utilize the RUG-IV system to ensure all of your residents are getting the level of care they require and that your facility is being fairly paid for the care and services it provides
